REPORT.

COMPTROLLER GENERAL'S OFFICE,

MILLEDGEVILLE, OCT. 21, 1861.

To His Excellency, JOSEPH E. BROWN, Governor:

SIR: In compliance with the provisions of Acts of December 28th, 1843, and December 11th, 1859, I have the honor to lay before your Excellency a statement of the receipts and disbursements at the Treasury during the fiscal year 1861, showing at the end of the year, a

Cash balance in the Treasury of\$324,105 86.

The appropriations undrawn amount to \$303,220 00; leaving a balance in the Treasury of \$20,885 86, after paying all appropriations for the political year 1861.

Good Assets belonging to the State.

In compliance also with the Act of 1859, I herewith furnish a statement of the "Assets belonging to the State," as shown by the books of the Treasury and Comptroller General's office, viz:

1,833 shares of stock in Bank of State of Georgia.....	\$183,300
890 shares of stock in Bank of Augusta.....	89,000
186 shares of stock in the Geo. Rail Road and Banking Company.....	18,600
6,500 shares of stock in the Atlantic and Gulf Rail Road Company.....	650,000
Bonds of Rail Roads of other States, bought from Penitentiary under Act of 11th December, 1858.....	11,000
Central Bank Assets, estimated by General Bethune, Agent, at.....	\$1,500
	<hr/>
	\$953,400

Also, the Western & Atlantic Rail Road (*value not to be put upon the same by the Comptroller or Treasurer.*) This Road, however, paid into the State Treasury as nett earnings in 1859 \$420,000; 1860 \$450,000, and in 1861 \$438,000.

P16810

In accordance with law, the Finance Committee of the last Legislature, directed that certain worthless assets, heretofore reported, be left out of the future Reports of the Treasurer and Comptroller General, and the same have been omitted, as also the old and worthless tax fi fas heretofore alluded to and reported upon. A large number of small Arms, Cannon, &c., have been purchased by the State within the last year or two, but as they are now in the hands of the soldiers of the State and Confederate States, and as the war is still going on and no satisfactory or reliable report can be made at this time relative to the same, these "assets" are not included in the above statement.

Statistics of Taxables, &c., in Georgia 1861.

In compliance also with the Act of 1859, accompanying this report, will be found tables A. B. C. D. and E., "containing the taxable property, and other items on the Tax Digests for the year 1861—together with table F., containing the polls in each county for the year immediately preceding this Report, the number of voters in each county, at the last general election; the number of children in each county returned for participation in the Educational Fund; the amount drawn by each county, out of the Treasury, from the Educational Fund; the amount drawn by each county for pay of members of the Legislature; the total amount drawn out of the State Treasury by each county, and the total amount paid into the Treasury by each county, for the year 1860. In table F. will also be found columns containing the white, and slave and colored population, in each county in 1859, as taken by the State Census Takers—also a column containing the Representative Population of each county as reported by a select committee of the Senate, and upon which the late apportionment of members of the Legislature were made. Table "A" contains the number of acres of land, its total value per acre, in the various counties throughout the State, for 1860 and 1861. Table "B" contains the number of slaves, their total and average value in the same counties for 1860 and 1861. Tables "C" "D" and "E" contain the other articles of taxation, entered on the Receiver of Tax Returns' book, in all the counties in the State, for 1861. Table "C" also contains the number of children in each county, between the ages of 6 and 18, returned on the Tax Book for 1861, by which it will be seen that the whole number of children returned on the Tax Books alone, for a participation in the Educational Fund amounts to 144,149, against 141,001 last year. And table "D" also contains the total return of property in the several counties in 1861, together with the total amount of property returned in each county

1861

in 1860, with columns showing the total increased and decreased returns in each county in 1861.

It will be seen that the total decrease on the whole property returned this year (1861) upon that of last year, notwithstanding we are, and have been during this year, engaged in a war, is but \$28,418,779 or a little over four per cent. But that it may be seen upon what items of property the greatest decrease and increase have been made, I herewith submit a small table of comparison between the returns of 1860 and 1861.

A Table, showing the Total Value of various items of Taxation in the State in 1860 and 1861, and also the increase and decrease in the different items of taxation since 1860.

Property subject to Taxation.	Value in '60.	Value in '61	Increase	Decrease.
Land	161,764,955	161,621,244		140,711
Slaves	302,694,855	272,015,190		30,679,365
City and Town Property	35,139,415	35,510,699	371,284	
Money and Solvent Debts.	147,336,258	112,361,877	5,025,619	
Merchandise	15,577,193	12,720,623		2,856,570
Shipping and Tonnage.	943,940	902,576		41,370
Stocks, Manufactures, &c.	4,061,582	4,850,102	788,520	
Household & Kitchen Furniture.	2,374,284	2,215,616		158,668
Other property not mentioned.	42,427,295	41,601,747		825,548
	672,322,777	643,803,998		
Number of Polls	99,748	101,505	1,757	1
" " Professions	2,690	2,720	21	
" " Dentists.	96	95		1
" " Daguerrean Artists.	66	62		4
" " Free persons of Color.	1,225	1,273	48	
" " Acres of Land.	33,315,289	33,663,723	318,434	
" " Slaves	459,633	460,788	10,755	

By the above exhibit, it will be seen that while the items of money and solvent debts, and stocks and manufactures, and city and town property have been increased, the remainder of the items have decreased in value, and especially slaves and merchandize. When the former very high price of negroes is taken into consideration, and with free access to the world for cotton and other produce, while on the other hand, when we look to the fact that our Ports have been blockaded by the enemy, and that there was and is no certainty as to the blockade being raised this winter, so that our cotton can reach the usual market, the decrease in the value of slaves is very small indeed. As to the decrease in merchandize, that is easily accounted for, from the fact that our merchants did not bring goods into the State this spring, as heretofore.

The increased number of slaves in 1857 over 1856 were 9,831, the increased value was \$13,401,089; the increased value was but \$3,629,204; the increased number in 1859 over 1858, were 11,240, while the increased value was \$44,154,478; the increased number in 1860 over 1859 is 6,669, while the increased value was \$31,074,450; the increased

number in 1861 over 1860 is 10,755, while the decreased value is \$30,679,365. The average value of slaves in the whole State was, in 1856, \$505 21; 1857, \$524 97; 1858, \$526 39; 1859, \$612 63; and in 1860 it was \$672 61; and in 1861 it is \$590 33.

The increased value of land in the whole State in 1857, over 1856, was \$4,960,973; 1858 over 1857 \$2,169,011; 1859 over 1858 \$10,687,910; 1860 over 1859, \$12,217,075; and in 1861, the decrease from 1860 is \$140,711. The average value per acre of land, in the whole State, in 1856, was \$4 09; 1857, \$4 10; 1858, \$4 11; 1859, \$4 43, and in 1860, it was \$4 85. In 1861 it is \$4 80.

The increased value of City and Town property in 1857 over 1856 was \$3,857,447; 1858 over 1857 \$73,180; 1859 over 1858 \$2,019,070; in 1860 over 1859, it was \$3,010,101; and in 1861 over 1860, it is \$371,284.

The increased return of Merchandize in 1857 over 1856, was \$2,634,811; the *decreased* return in 1858 from 1857 was \$1,368,380. The *increased* return in 1859 over 1857 was \$1,679,788, and over 1858, \$3,069,176; and the increase in 1860 over 1859 was \$2,045,506. The decreased return in 1861 from 1860 is \$2,856,570.

The increased return of "money and solvent debts" in 1857 over 1856 was \$5,819,295; 1858 over 1857, \$5,867,286; 1859 over 1858, \$7,361,904; in 1860 over 1859, it was \$11,211,557; and in 1861 over 1860, it is \$5,025,619.

The increased return in the item of "all other property not enumerated," &c., in 1857, over 1856, was \$1,266,270; 1858 over 1857, \$2,078,041; 1859 over 1858, \$4,386,233; in 1860 over 1859, it is \$3,112,206; and in 1861 the decrease from 1860 is \$822,548.

The total amount of property returned on the Tax Digests for 1856, was \$495,516,224; 1857, \$528,927,965; 1858, \$539,055,114; 1859, \$609,589; in 1860, it was \$672,322,777; and in 1861 it is \$643,803,998.

An Abstract from the books of this office accompanies this Report, as required by an act of the 23d December, 1839, setting forth the amounts of the several appropriations, both common and special, under their respective heads, the dates and amounts of Warrants approved, in whose favor drawn, and the balance undrawn of each appropriation.

As required by act of the 26th December, 1821, a Table will be found, showing the amount of taxes which the inhabitants of each county in the State stand charged in the digests returned to this office by the several Receivers of Tax Returns for the year 1861; from which it appears that the tax assessed in accordance with the Act of the 19th December, 1860, amounts to \$706,854 53. The per cent.

levied this year on property returned on the Digests being ten and a half cents on the \$100 value thereof.

Annexed to this Report will also be found a table, showing the amount of per diem and mileage of members, and pay of the officers, Clerks, &c., of the last General Assembly.

Receipts and Disbursements at the Treasury.

Of the Receipts into the Treasury during the fiscal year 1861, there was received :

From General Tax of 1860.....	\$412,878 67
do do do 1859.....	75 53
do do do 1858.....	88 23
do do do 1861.....	22,009 50
do Net Earnings of W. & A. Rail Road....	438,000 00
do Bank Dividends.....	27,144 00
do Tax on Bank Stock.....	33,637 72
do Tax on Rail Roads.....	11,688 56
do Tax on Foreign Bank Agents.....	1,430 69
do Tax on Foreign Insurance Companies..\$	1,402 64
do Interest on Educational Fund.....	6,000 00
do Rail Road Bonds bought of Penitentiary, in 1859.....	5,230 41
do Sale of Bonds and Pay for Stock in At- lantic & Gulf Rail Road.....	150,000 00
do Sale of Bonds for military defence of the State.....	330,000 00
do Loan from Banks for military defence of State.....	537,500 00
do Amount refunded to \$ 1,000,000 Fund by sale of Steamer Savannah and V. A. Gaskell, Paymaster	24,022 46
do Fees on Testimonials.....	130 00
do do Head Right Grants.....	482 00

do do and officers, and printing and other expenses of State Con- vention.....	\$98,852	50
Amount advanced by order of Con- vention to Commissioners to Southern States, and Delegates to the Southern Congress at Montgomery, in February last.	3,900	00
	<hr/>	102,752 50
For purchase of Arms, &c., under Act of 1859,	32,181	90
On account of the military Defence of the State under Act of 1860.....	996,875	67
For redemption of the Public Debt,	5,000	00
“ Interest on the Public Debt,	149,839	25
“ Deaf and Dumb Asylum—for support of pupils, 1861,	10,000	00
“ Cotton Planters’ Convention,	2,500	00
“ Expenses of Howell Cobb, President do. to Europe, 1860,	2,400	00
“ Amount appropriated for Commissioner to Europe,	3,000	00
“ Salaries of Commissioners, &c., for Codify- ing the Laws.	9,650	00
“ Penitentiary—to complete buildings,	5,000	00
“ “ —to purchase provisions,	5,000	00
“ “ —for salary of Chaplain,	150	00
“ Georgia Military Institute—for support of State Cadets,	2,000	00
“ “ “ “ —for pay of Trustees, Inspectors, and Visitors,	730	00
“ Georgia Military Institute—for Carpen- ter’s, and other work done,	1,669	86
“ Georgia Military Institute—for salary of Superintendent,	2,500	00
“ Lunatic Asylum—for making Bricks for wall round,	1,500	00
“ “ “ —for building wall,	4,000	00
“ “ “ —for better supply of water,	1,000	00
“ “ “ —for support of pauper pa- tients,	17,825	17
“ “ “ —for pay of officers, &c.,	11,500	00

For Lunatic Asylum—for salary of Superintendent,	2,400 00
“ Academy for the Blind—for support of in 1861,	7,000 00
“ “ “ “ —Handicraft Department,	1,000 00
“ other miscellaneous appropriations which will be seen in an Abstract accompanying this Report, amounting in all to	39,313 32
Total,	\$1,955,751 32

Leaving a balance in the Treasury of \$324,099 86.

Having thus exhibited the operations of the Treasury for the past twelve months, I have deemed it not inappropriate to allude to, and make an approximation to the ordinary receipts and expenditures of the ensuing fiscal year. The anticipated receipts into the Treasury for the fiscal year 1862, may be stated as follows :

From general Tax of 1861,	\$585,000 00
Net Earnings Western & A. Rail Road,	438,000 00
Tax on Banks,	34,000 00
“ “ “ Rail Roads,	11,688 56
Bank Dividends,	27,144 00
Rail Road Bonds bought of Penitentiary,	11,000 00
Miscellaneous Items,	5,000 00
	<hr/>
	\$1,111,832 56

Add Balance after paying appropriations for 1861,	20,885 86
	<hr/>

And we have a Total of, **\$1,132,718 42**

The demand upon the Treasury, for the same year, will approximate as follows :

To pay members of the Legislature,	\$ 80,000 00
“ Civil Establishment, 1862,	74,050 00
“ Contingent Fund, 1862,	16,000 00
“ Printing Fund, 1862,	25,000 00
“ Reduction of Public Debt,	143,500 00
“ Interest on Public Debt,	231,865 00
“ support of pauper patients, Lunatic Asylum,	20,000 00
“ salary of Superintendent, Lunatic Asylum,	2,400 00
“ salary of other officers and servants, Lunatic Asylum,	12,000 00
“ support of pupils, Deaf and Dumb Asylum,	8,000 00

To pay support of pupils, Academy for the Blind,	7,000 00
“ support of the Cadets, Ga. Military Institute,	2,000 00
“ salary of the Sup't. of the Ga. Military Institute,	2,500 00
“ purchase of provisions for Penitent'y,	5,000 00
“ salary of Chaplain,	150 00
State Library—for purchase of Books,	1,000 00
“ “ —for salary of Librarian,	800 00
For Military Storekeeper at Savannah.	300 00
“ “ “ at Milledgeville,	400 00
“ Common School or Educational Fund,	145,369 00
“ Miscellaneous Appropriations, say,	50,000 00
	<hr/>
	\$827,334 00

Showing a surplus at the end of the year of \$305,384 42.

In the above exhibit of the anticipated receipts and expenditures for the ensuing fiscal year of 1862, it will be seen that only the ordinary receipts and expenditures of the State are included. If the war continues, of course our expenditures will be much heavier, and may perhaps exceed the anticipated receipts, and another loan, or a higher tax, may become necessary. These things, however, are dependent upon future events; and, our enemies being so uncertain and unreliable, and as I have no idea how soon or how late they may come to their senses, and be satisfied that a further war upon us is useless and unprofitable to them, I have not thought it material at this time to attempt an approximation of what we may have to spend next year, on account of their hostilities, &c. But, were the war brought to a close a month hence, without a further expenditure than the balance of the \$1,000,000 appropriation, this surplus can be very advantageously used in paying off the Public Debt. For, although there is but \$143,500, (6,000 due in 1859, and 10,000 due this year and uncalled for,) of the Public Debt *due* the ensuing year, still the State *can, if it chooses*, at any time, force in and *redeem* \$461,500 of its Public Debt—the State having, in 1848, reserved to itself the right to redeem certain Bonds, at any time after 10 years. These Bonds are due in 1863, 1868 and 1872, as will be seen by a more full statement, under the head of “Public Debt, in Bonds.”

THE \$1,000,000 APPROPRIATION FOR MILITARY PURPOSES.

The last Legislature appropriated the sum of \$1,000,000 as a Military Fund for the year 1861, "*to be expended by the Governor in such manner as he may deem best*, for the purpose of placing the State in a condition of defence," &c. The appropriation having been thus placed exclusively under the control of your Excellency, I have felt that the only duty required of me under the Act, was to accept and pass your warrants drawn on the Treasury on said Fund, to keep an account of the same, and to guard against the amount appropriated being over drawn. Consequently, in another part of this Report will be found a full statement of expenditures, or an account current, in relation to said Fund, showing in whose favor, and for what purpose, each warrant was drawn, &c.

It will be seen, that while warrants to the amount of \$996,875 67 have been drawn, the actual amount expended of said Fund, amounts to but \$972,853 21.

In the exercise of the discretion allowed you by the Act making this appropriation, and in obedience to the instruction of the Convention, in March last your Excellency thought proper to purchase the Steamer Everglade, (afterwards changed to the name of Steamer Savannah,) but, subsequently having sold the same to the Confederate States Government, your Excellency returned to the Treasury \$20,000, of the amount received for this Steamer. V. A. Gaskill, Paymaster, having drawn from the Treasury, on this Fund, upon your warrant, \$35,000, to pay the troops at Camp McDonald, also returned to the Treasury an unexpended balance of \$4,022 46; which two sums being placed to the credit of the \$1,000,000 Fund, reduces the actual amount drawn from the Treasury on said Fund, up to date, to \$972,853 21; and leaves a balance of \$27,146 79 of said Appropriation still subject to your warrants. The account stands thus:

Amount Appropriated,	\$1,000,000 00
Dr. to am't of warrants drawn, \$996,875 67	
Cr. by amount refunded from	
sale of Steamer Savannah, and	
by V. A. Gaskill, Paymaster,	24,022 46
	<hr/>

The actual am't drawn from the	
Treasury and used,	\$972,853 21
	<hr/>
	972,853 21

Leaving a baln'c of Fund undrawn, am't'g to \$27,146 79

THE EDUCATIONAL FUND.

By an Act, approved January 22, 1852, the dividends arising from the stock belonging to the State in the Bank of the State of Georgia, the Bank of Augusta, and the Georgia Rail Road and Banking Company, were "set apart as a permanent fund for the education of the *Poor*." This fund was distributed as a "Poor School Fund" up to 1858. By an act of the 11th Dec. 1858, the manner of the future distribution of this fund was changed. This Act annually appropriated \$100,000 of the net earnings of the Western & Atlantic Rail Road "TO THE PURPOSES OF EDUCATION,"—the Bank Dividends before used as a Poor School Fund was added to the same, and these two sums were directed to be "divided out among the several counties, according to the return of *all white children* thereof between the ages of 8 and 18." (This Act was amended in 1859, requiring the same to be divided among children between 6 and 18.) The Act of 1858, also provides, that in addition to the sums above specified, whenever the Governor redeemed any portion of the Bonds of the State then outstanding, he is to issue, in lieu of the same, other Bonds to be deposited with the Secretary of State as the Trustee for the Educational Fund of Georgia, and the interest on the same at 6 per cent. per annum, is to be annually added to this Fund, and be distributed. The issue of these Bonds to go on from year to year, in proportion to the amount of the Public Debt redeemed, until the whole Debt (existing in 1858 to \$2,627,000) is paid off. At which time in addition to the \$100,000 from the Road, and the Bank Dividends, the whole interest of this \$2,627,000, amounting to \$157,620 00 annually is to be added to the fund. In addition to these sums the Governor is authorized also annually to add any surplus that may be in the Treasury at the time the apportionment is made.

Up to October, 1860, however, only \$298,750 of the Public Debt in Bonds had been redeemed since the passage of the Act of 1858, and therefore, the condition of this Fund for this year stands as follows:

From Bank Dividends.....	\$27,144 00
From Western & Atlantic Rail Road.....	100,000 00
“ Interest on \$298,500, Public Debt re- deemed.....	17,910 00
	<hr/>
	\$145,054 00

Previous to this year, your Excellency, by the use of the Public Deposits, was enabled to loan out the \$100,000 of the Road fund appropriated for Educational purposes, and to obtain for it interest at the rate of seven per cent. per

annum. But in consequence of the necessities of the State, and her immediate use for her money, the same could not be done this year. Your Excellency, however, securing this year the Northern Exchange for the State without cost, for the Deposits.

THE STATE CONVENTION—ITS EXPENSES.

The last Legislature, in calling a Convention of the People, that Georgia might determine her course in relation to her further association with the Northern anti-slavery or Abolition States, appropriated \$55,000 to pay the expenses of said Convention. But, upon the close of its deliberations, it was found that the pay of its members, their per diem and mileage, pay of Secretary and Assistants, Printing and other expenses, together with sending and advancing to Commissioners sent to other Southern States, and to Delegates sent to the Southern Congress at Montgomery, in February last, amounted to \$102,752 50.

Warrants to the amount of \$3,900 were drawn on the Treasury by your Excellency for the advances to the Commissioners sent to other States and to the Delegates to Congress. But, as the expenses of the Convention far exceeded the appropriation made by the Legislature, no other warrant was drawn on said fund by your Excellency—the Convention having appropriated the necessary amount, by directing its President to draw his warrant upon the Treasury, for the per diem, mileage of members, and pay of officers, and other expenses of the Convention. The warrant to be drawn and paid by the Treasurer, as he pays the warrants of the President of the Senate and House of Representatives of the Legislature.

As the Comptroller General is not authorized by law, to audit, reject or approve, the President or Speaker's Warrants, but is only authorized to enter the same and allow the Treasurer credit for them on the Books in this office, the warrant of the President of the Convention was disposed of in the same way.

THE PUBLIC DEBT—IN BONDS.

Through the courtesy of the very obliging and efficient State Treasurer, JOHN JONES, Esq., who has recently given the Bond books in his office a close and thorough examination, I am enabled to present the following statement in relation to the Public Debt of the State, in Bonds, viz:

Due in 1862, 7 per cent. Central Bank Bonds..	\$27,500
“ 1863, “ “ “ “ “	63,500
“ 1864, “ “ “ “ “	41,500
“ 1862, “ “ for W & A Rail Road..	100,000
“ 1863, 6 “ now redeemable....	28,000
“ 1865, “ “	16,500
“ 1868, “ “ now redeemable.....	190,000
“ 1869, “ “	262,500
“ 1869, 5 “	72,000
“ 1870, 6 “	102,500
“ 1871, “ “	156,250
“ 1872, “ “	622,000
“ 1872, 7 “ redeemable in 1862..	100,000
“ 1873, 6 “	171,000
“ 1874, 6 “	75,000
“ 1874, 7 “	177,000
“ 1878, 6 “	100,000
“ 1879, 6 “	200,000
“ 1880, 6 “	200,000
“ 1881, 6 “ A & G R R.....	100,000
“ 1881, 6 “ For defence of Ga...	330,000
	<hr/>
	\$3,135,250
And due in 1859, probably paid.....	6,000
“ “ 1861, “ “	10,000
	<hr/>
	3,151,250
Due on loan from Banks.....	537,500
	<hr/>
Total.....	\$3,688,750

It will be seen that \$6,000 Central Bank Bonds due in 1859, and \$10,000 of similar Bonds due in 1861 have not been presented for payment—at all events, they are not marked paid in the Bond Book. But, as the State has, for several years past, at different times, redeemed Bonds not due, it is possible these Bonds may have been paid, and the fact of payment omitted to be entered on the Bond Book. But, if paid, they are sealed up in packages, in the Treasury office, which neither the Treasurer or Comptroller General can open without authority from the Legislature.

It will also be seen that of the Bonds now remaining unpaid and not due \$2,553,750 are 6 per cents, \$72,000 are 5 per cents, and \$525,500 are 7 per cents. This office has no information as the interest to be paid on the \$537,500 obtained from the Banks, and for which they hold the Comptroller's receipts, and of course the per cent cannot at this time be stated.

In addition to this debt of \$3,151,250 in Bonds, and \$537,500 on loan from the Banks, by an Act of 11th Febru-

ary 1856, the State is bound to subscribe, in the proportion of \$5, to \$6 raised by private subscription, for as much as \$500,000 more to the Atlantic & Gulf Rail Road. The Act provides that, in the event of there not being money in the Treasury to pay the Installments when due, that the Governor be authorized to issue State six per cent Bonds, payable at the expiration of twenty years. \$150,000 of Bonds have already been issued for this subscription, leaving the State still responsible, under certain circumstances, for a further subscription of \$350,000.

THE LOAN FROM THE BANKS—FOR THE MILITARY DEFENCE OF THE STATE.

The last Legislature having appropriated \$1,000,000 to be used by your Excellency for the Military Defence of the State, and having also authorized your Excellency to raise the same, if necessary, upon State 6 per cent Bonds, to be issued payable twenty years after date—in addition to reporting the amount obtained, I have deemed it but just to give the names of the Banks, that patriotically came forward and assisted the State in her hour of need. The following named Banks took the amounts opposite their names, viz :

Central Rail Road & Banking Company....	\$100,000
Bank of Savannah.....	50,000
Bank of the State of Georgia.....	120,000
Bank of Columbus.....	35,000
Planters' Bank of Savannah.....	50,000
Timber Cutters' Bank of Savannah.....	5,000
Farmers' & Mechanics' Bank of Savannah..	15,000
Augusta Insurance & Banking Company....	37,500
City Bank of Augusta.....	40,000
Mechanics' Bank of Augusta.....	50,000
Bank of Augusta.....	60,000
Union Bank of Augusta.....	30,000
Georgia Rail Road & Banking Company....	50,000
Bank of Commerce, Savannah.....	50,000
Merchants' & Planters' Bank of Savannah..	50,000
Marine Bank of Savannah.....	100,000

Total amount taken.....\$842,500

The Capital Stock paid in of the above named Banks will be found in another part of this Report. It will be seen that the Central Rail Road & Banking Company has taken to the amount of 33 $\frac{1}{3}$ per cent. of its *Banking Capital*. The balance of the Banks named, with one or two ex-

ceptions, have taken the amount of 10 per cent of their Capital Stock. Bonds, bearing interest at 6 per cent per annum, payable 20 years after date, were issued to the Central Rail Road & Banking Company, the Bank of Savannah, the Farmers' & Mechanics' Bank of Savannah, the Timber Cutters' Bank of Savannah, and also \$50,000 in Bonds were also issued to the Bank of the State of Georgia. The other Banks only hold the Comptroller's Receipts for the amounts taken by them. The Bank of the State of Georgia also holds the Comptroller's Receipt for \$70,000 taken by it. The Sharpe's Rifle Manufacturing Company also, in December last, agreed to take, and did afterwards take, \$25,000 of the 6 per cent 20 year Bonds, in part pay for Rifles purchased from that Company by your Excellency. Making in all \$867,500 of the loan taken.

The following Banks have not, up to this time, taken any part of the loan, viz:

The Manufacturers' Bank of Macon.

" Bank of Middle Georgia, "

" Bank of the Empire State, Rome.

" LaGrange Bank, LaGrange.

" Cherokee Insurance & Banking Company, Dalton.

" Bank of Whitfield, Dalton.

" Bank of Athens, Athens.

" Bank of Fulton, Atlanta.

" North-Western Bank of Georgia, Ringgold.

TAX ON BANKS—1860.

For the information of the public, and as there is a general want of information as to the tax on Bank Stock, I have concluded that the public interest would be promoted by annually reporting the Capital Stock of the several Banks, the amount of tax paid by each, and also the manner in which it is levied and paid—together with such other remarks as circumstances may require during each year. In relation, then, to the manner of levying and paying the State tax, I have to state that by an Act of the 19th December, 1817, Bank Stock was taxed 31 $\frac{1}{2}$ cents on the \$100 of Capital Stock *paid in*. By an Act of 1841, 25 per cent was added to the same making the tax on Bank Stock 39 $\frac{1}{16}$ th cents on the \$100. The Legislature of 1852, in adopting the *ad valorem* system retained this specific tax on Bank Stock, and the several Banks have paid this tax from year to year up to this time. The following Banks in operation and doing business in 1860, returned the amount of their Capital Stock paid in, and all have paid in their tax except the

Bank of Whitfield and the Cherokee Insurance & Banking Company, both located at Dalton, Whitfield county, Georgia. As the Bank Stock of the University in the Bank of the State of Georgia is not liable to taxation, and as the State's portion of the stock in said Bank has not heretofore been taxed, although the full amount of Capital Stock paid in is reported below, yet it will be seen that the tax is not paid on the whole amount in that case:

Names of Banks.	Where located.	Capital Stock paid in.	Amount of Taxes paid.
The Bank of the State of Georgia,	Savannah,	\$1,500,000	1,192 19
" Marine Bank,	"	1,000,000	3,906 25
" Planters' Bank,	"	535,000	2,091 40
" Merchants' & Planter's Bank,	"	525,000	2,032 65
" Bank of Savannah,	"	500,000	1,953 12
" Bank of Commerce,	"	500,000	1,953 12
" Central Rail Road & Banking Company,	"	300,000	1,171 89
" Farmers' & Mechanics' Bank,	"	250,000	976 56
" Timber Cutters' Bank,	"	50,000	195 31
" Bank of Augusta,	Augusta,	600,000	2,315 75
" Mechanics' Bank of Augusta,	"	500,000	1,953 12
" Georgia Rail Road & Banking Company,	"	500,000	1,953 12
" City Bank,	"	400,000	1,562 50
" Augusta Insurance & Banking Company,	"	315,609	1,164 81
" Union Bank,	"	300,000	1,171 88
" Bank of Columbus,	Columbus,	500,000	1,953 12
" Manufacturer's Bank of Macon,	Macon,	150,550	529 50
" Bank of Middle Georgia,	"	125,000	488 24
" Bank of the Empire State,	Rome,	50,000	195 31
" LaGrange Bank,	LaGrange,	150,000	585 94
" Cherokee Insurance & Banking Co.,	Dalton,	125,000	
" Bank of Whitfield,	"	68,000	
" Bank of Athens,	Athens,	100,000	310 62
" Bank of Fulton,	Atlanta,	96,200	375 77
" North-Western Bank of Georgia,	Ringgold,	50,000	195 50
		9,205,559	33,637 72

It will thus be seen that the Cherokee Insurance & Banking Company and the Bank of Whitfield have not paid their tax. Immediately upon being officially notified of their default by the Treasurer, as the law directs, I issued fi fas against each of these Banks for a default tax amounting to \$4,687 50 each, and sent the fi fas to the Sheriff of Whitfield county, but the same has not yet been collected.

SALARIES OF STATE OFFICERS.

THE REGIMENTS OF VOLUNTEERS IN THE SERVICE OF THE CONFEDERATE GOVERNMENT.

While reporting the expenses of our State for Military purposes,—although not required by law, yet I desired, if it was possible to do so, to present the organization of the various Regiments of Volunteers received into its service by the Confederate States Government—That is, to give the name of the Colonel, Lieutenant Colonel, Major, and the Captains and Lieutenants of Companies in each Regiment, the counties from which each Company came, and also *the number* of each Regiment as given it by the *Confederate States Government*.

As much of this information could only be obtained from the War Department at Richmond, I have used my best exertions to obtain the same from that point, without success. I have only been enabled to get an official statement of the *numbering* of the various Regiments, reported or received at that Department, up to the 1st of October, together with the stations of the Regiments named. As the numbers of many of the Regiments are different from those given them when they left Georgia, and as in all reports of the Confederate officers, they will only be designated and known by the numbers given them by the Confederate Government, I have concluded to submit the information received upon *this point*, which is as follows:

List of Regiments from the State of Georgia in the service of the Confederate States, and their stations, Oct. 1, 1861 :

No. of Regt.	Colonel.	Station.
1st.	C. J. Williams,	Manassas.
1st.	H. W. Mercer,	Savannah.
1st.	J. N. Ramsey,	N. W. Army, Va.
2.	Paul J. Semmes,	Manassas.
3.	A. R. Wright,	Norfolk.
4.	George Doles,	do.
5.	John K. Jackson,	Pensacola.
6.	A. H. Colquitt,	Yorktown, Va.
7.	L. J. Gartrell,	Manassas.
8.	W. M. Gardner, (Independent,)	do.
9.	E. R. Goulding,	do.
10.	L. McLaws, (Independent,)	Yorktown.
11.	G. T. Anderson,	Manassas.
12.	Ed. Johnson, (Independent)	N W Army, Va.
13.	W. Ector, (Independent)	Army of Kanawha
14.	A. V. Brumby,	N. W. Army.
15.	T. W. Thomas,	Manassas.
16.	H. Cobb, (Independent)	Yorktown.
17.	H. L. Benning, Lynchburg ord's Army	Kanawha.
18.	W. T. Wofford,	Richmond.
19.	W. W. Boyd,	Army of Kanawha, Va.
20.	W. D. Smith, (Independent)	Manassas.
21.	J. T. Mercer, (Independent)	do.
22.	Robert Jones,	Camp of Instruction, Ga.
23.	T. Hutchenson,	do. do.
24.	R. McMillan,	Goldsboro', N. C.
25.	C. C. Wilson,	Savannah.
26.	Not Reported,	Camp of Instruction, Ga.
27.	do. do.	do. do.
28.	do. do.	do. do.
29.	do. do.	do. do.
Georgia Legion—T. R. R. Cobb,		Yorktown.
Phillips' do. —Wm. Phillips,		Army of Kanawha.
1st. Battalion,—Lieut. Col. J. B. Villepigne,		Pensacola.
2d. do. —Maj. Hardeman,		Norfolk.
3d. do. —Maj. Stovall, Lynchburg, ord's A Kanawha		

Besides several independent companies in Virginia not yet organized into Battalions or Regiments.

Although in the above statement Col. Benning's Regiment is put down as at Lynchburg, yet for several weeks past it has been at Manassas, and Col. Wright's third Regiment has lately been at Roanoke Island, N. C. I have only added to the statement received, the word "Independent" opposite those Regiments that were received by the Confederate Government directly, and not through our Executive.

The Regiments alluded to in the foregoing statement, as "not reported," &c., are no doubt,

Col. T. J. Warthen's Regiment,
do Levi B. Smith's do
do David J. Bailey's do
do A. Littlefield, do
now in Camp of Instruction in Georgia.

In addition to these, there is another, more than full, Regiment, commanded by Col. Carey W. Styles, stationed at Brunswick, Georgia, in the service of the Confederate States' Government. Also three "Independent Regiments" not yet full, but in Camp, in Georgia, viz:

Col. Wm. H. Stiles' Regiment, 5 Companies,
Col. E. L. Thomas' do 7 do
Col. Aug. R. Wright's do 6 do
Also, Col. C. A. L. Lamar's do 7 do received
by the Confederate Government through State authority.

Besides these there are already three (3) Regiments in the service of the State, on or near the coast, to be increased to six (6) Regiments within the next twenty days, for the purpose of protecting the seaboard of Georgia.

Thus it will be seen that our State has at this time thirty-four full Regiments (some more than full) and four partially filled Regiments, together with three Battalions, and other independent companies in Virginia and Georgia, amounting in all to about forty (40) Regiments in the Confederate Government service. And besides this, three (3) Regiments now in the State service to be increased to six (6) Regiments within the next twenty days, for the defence of her sea coast.

Of the Regiments and Battalions in the Confederate Government service, Georgia has armed, accoutred and equipped twenty-one Regiments, three Battalions, and several Companies attached to full Regiments—all of which accoutrements, equipments, &c., and a portion of the arms, have been paid for out of the \$1,000,000 appropriation, as will be seen in the Abstract accompanying this Report, and from the Reports of the Quartermasters General.

AMENDMENTS TO THE REVENUE LAWS.

By Act of 1821, it is made the duty of the Comptroller General, from year to year, to report to the Legislature such changes or modifications of the Revenue laws, as in his judgment the public interest demands. As, however, the last Legislature adopted a Code of laws to supercede all others, in which our former Tax Laws in relation to the return of property, &c., and the collection of the revenue in detail, have in many instances been changed, some of which changes I consider an improvement upon our former laws; and as the same do not go into operation until January next, until I see their operation and effect, I am not prepared to recommend many amendments at present.—Nevertheless, from a slight glance over that part of the Code relating to the Revenue Laws, and a glance at the Tax Acts of the last Legislature, to be included in the Code, I think there are several things omitted and not provided for, connected with the collection of the Public Revenue; and I would, therefore, respectfully call the attention of the Legislature to the necessary amendments. First, then, as to

The fees of Tax Collectors for the issuing of Tax Fi Fas.

Notwithstanding Tax Collectors have been issuing tax fi fas, and collecting costs on the same from year to year, I have searched the statutes now of force, and I cannot find where Collectors are especially allowed any specific sum as a fee for issuing said fi fas. I suppose, however, that they have usually charged the fee allowed to other officers. But I think the amount to be charged by them should be especially set forth; the Sheriffs or Constables, into whose hands said fi. fas. are placed for collection, charging the same as is allowed upon other fi fas. And in this connection, I would also respectfully call the attention of the Legislature to the subject of

Allowing Collectors, Sheriffs and Constables costs on Insolvent Tax Fi. Fas.

The various Acts providing for allowance to Tax Collectors for Insolvents, authorizes the Grand Juries or Inferior Courts to make such allowances. The Comptroller General is not authorized to go behind the certificates of the Grand Juries or Inferior Courts, and enquire how, or in what manner these Insolvent Lists or Certificates are given—but the manner of allowing them is prescribed by law to a certain extent, to the Juries and Courts, and the law presuming that these bodies will follow the statutes and guard the public interests, and will only allow what is right and proper, the Comptroller General is required, upon their be-

ing presented at this office, in a proper form, &c., to credit them to the Collector in his final settlement of the Tax of the State. But my observation and experience have satisfied me, that in some, if not in many instances, from a mistaken notion of the law, Collectors and other officers have been allowed by Juries or Inferior Courts, costs on the Insolvent tax *fi. fas.* As I cannot find any enactment *authorizing* Collectors, Sheriffs or Constables to receive costs on insolvent tax *fi. fas.*, in all cases where the claims for such costs have been presented at this office I have rejected the same. For the same reason that Receivers of Tax Returns are not allowed commissions on the *default list* they return to this office, and the Collectors are not allowed commissions on their *Insolvent lists*, I think Collectors and Sheriffs and Constables should not be allowed any costs upon the so-called "*Insolvent fi. fas.*," *unless they collect the same from the defendant.* Under the present mode prescribed to the Grand Juries and Inferior Courts for allowing Insolvent Lists, there is no *necessity* for issuing executions at all, by the Collector, in *many* instances,—and in those cases where the Collector or Court think it best to issue the *fi. fas.*, it is better that the Collector and other officers should receive no cost on the same, unless they collect the tax, rather than indiscriminately allow them such costs.

The present law in force authorizes and requires the Grand Juries or Inferior Courts to allow the Tax Collectors their Insolvent lists, either at their regular term, or in vacation, on or before the 15th of December in each year.—They are required to state in their certificate to the Collector, the amount allowed for insolvents, *on account of the State Tax*, and the amount *allowed for the county Tax.* By doing this, the Comptroller will know how much to credit the Comptroller with on the State Tax. * And they are authorized to make these allowances, either upon a *list of names* furnished by the Collector *under oath*, or on *fi. fas.* with the proper entries thereon. As before remarked, there will be no necessity, under this law, for issuing *fi. fas.* in many cases, as the Collector, in the first place, would not swear to the Insolvency of a man, as to his tax, unless the case was a very hopeless and bad one, and if he should commit an error, the Jury or Court could disallow what he claimed and require him to issue a *fi. fa.* in the case or cases. But were the State to pay him and the Sheriff or Constable cost on *fi. fas.* so ordered by the Court to be issued, so far from bettering the thing in requiring him to issue the *fi. fa.* or *fi. fas.*, in all probability in many cases it would make the matter *worse* for the State and county.—Having sworn that the person or persons were insolvent, the Collector would still think so, and the Sheriff or Constable might think so from the same cause, and as it would

be *easier* to merely enter on the *fi. fas.* "no property" or "insolvent," and *get pay for it*, rather than *hunt up property*, &c., and *still only receive pay for it*, it will at once be seen that this allowing these officers costs on "*Insolvent Tax fi. fas*" unless collected from the defendants, works injury in more than one way, both to the State and the various counties. I would therefore respectfully suggest that it be enacted that no officer shall receive a fee on a tax *fi. fa.* unless the same is collected from the defendant.

Relative to future allowance of Insolvent Lists.

With all the diligence, care and fidelity exercised on the part of the Commissioners forming the Code—or at least I most cheerfully bear testimony to the great care, and particularity on the part of one of them in his efforts to have our Revenue Laws as perfect as possible—I regret to find, that in the revision, changes and alterations, made by the Commissioners and joint Committee of the Legislature, the above very appropriate and necessary enactment pointing out the mode and manner of allowing Insolvent Lists to Collectors, now of force, and which will be in force until January, together with other necessary enactments, have been omitted in the Code. And as no similar provision has been made, as to the allowance of Insolvent Lists, I would respectfully recommend to the Legislature to re-enact this Act of the 21st Dec. 1857, with an amendment that no Collector, Sheriff or Constable shall receive costs on a tax *fi. fa.*, unless the same is collected from the defendant.

The allowance of Insolvent Lists by the Comptroller General to Tax Collectors.

Previous to the year 1856, the taxes of the State were required to be paid into the State Treasury by the 1st of December in each and every year; and the Comptroller General was authorized, if he thought proper, to wait with the Collectors for their Insolvent Lists, if they did not have them allowed by the Grand Juries or Inferior Courts by that time. The result was, there were very few payments in full of taxes by the Collectors, on the 1st of December.—Most of the accounts were open and unsettled for months in each year, and many remained opened and unsettled for years—the Collectors claiming an allowance for Insolvents, but with one or two exceptions, none having Insolvent Lists to the amount originally claimed by them. A Committee of the Legislature having examined into the matter, authorized an immediate settlement of all those accounts, by the present Comptroller, which was accomplished in 12 or 18 months after much labor and trouble, netting to the State in the neighborhood of \$20,000. And at the suggestion of the same Committee an Act was also passed to change the

time of payment, or of final settlement, to the 20th December in each year; and requiring Insolvent Lists to be presented at this office at the same time. To enable Collectors to comply more readily with this Act, upon a suggestion from this office, in 1857, another Act was passed authorizing and requiring the Grand Juries or Inferior Courts to allow the Collectors their Insolvent Lists at any time, at their regular term, or in vacation, before or by the 15th of December, upon being called upon by the Collectors to do so. (This Act, as I have before stated has been omitted in the Code, and I have recommended its re-enactment.) Since the passage of the Act of 1857, in carrying out the Act of 1856, it has been the practice of this office, excepting in a very few extreme cases, and extending only for a short time, to require either the Insolvent List on the 20th December, or all the money, except the Receivers and Collectors Commissions, to be paid into the State Treasury—and then, whenever thereafter, a Collector presented his Insolvent List properly allowed, &c., to this office, the same has been accepted and credited to him, and the amount of overpayment by him, by virtue of this Insolvent List, has been immediately refunded to him or his order. This system has worked very well. Not only most of the Collectors have had their Insolvent Lists at this office at the proper time, so that a full settlement could be made at the time specified, but nearly all of the taxes have been paid into the Treasury at the time specified by law.

But, if I mistake not, the Code has materially changed this system, or if it has not, there is an ambiguity in the 792d section of the same, that I fear will work confusion, if not much mischief, if not immediately modified or repealed. The section reads as follows:

“792. Collectors shall not be *credited* by the Comptroller General with an Insolvent List, without being thus allowed (that is, allowed by a Grand Jury or Inferior Court) *unless* they have first made *bona fide* applications as required by law, to the proper tribunals, and *have failed to have them allowed*, from some cause *not of their fault*, as the failure of the Court or Justices to meet, or for some Providential cause, which fact shall be certified to the Comptroller General by the Clerk of the Inferior Court, when sufficient evidence shall be produced to show that the list was insolvent.”

Now if there is any meaning in this section, it *authorizes* if it does not *require* the Comptroller General to allow Tax Collectors their Insolvent Lists, or rather it allows the Comptroller General to pass upon the solvency and insolvency of tax payers in the various counties of the State, under certain circumstances. Provided a Tax Collector will get a certificate from the Clerk of the Superior Court

that he has made application or applications to the Grand Jury or Inferior Court to allow him an insolvent list, and that they did not convene at the time and place suggested, the said Collector is authorized to make out a list himself, or bring to the Comptroller General any list he pleases or chooses to swear to, and the Comptroller General having no personal knowledge whatever of the parties returned to him as insolvents, is called on to pass upon and allow the same. Or, if the Comptroller is honest and conscientious, or careful of the public interest, and does not choose to pass upon the solvency or insolvency of men in different parts of the State, merely upon the affidavit of a Collector he knows nothing about, save as a Collector for a certain county—and he should prefer to return said lists to the county for the Juries or Courts, knowing the parties, to pass upon. (besides this course very highly augmenting the duties of this office, which are now already more than *one man* ought to be called upon to perform;) on the other hand, could not the Collector with plausibility claim that he, under this section of the Code, having complied with the law in making applications, &c., *is entitled* to have this list &c., *sworn to*, allowed instantan, and a full receipt given him, *unless* the Comptroller General (knowing nothing of the parties) can show that he (the Collector) has made a false return? Then who is to decide as to what is the proper course?

But laying aside the vast amount of trouble and labor that may be thus unnecessarily thrown upon the Comptroller in his having to write to the Courts and Juries, and getting them to pass upon these Insolvent Lists, and the delay produced in the final settlements of the accounts at this office, should he determine not to take the responsibility of passing upon the solvency or insolvency of men he knows nothing about, there is another view of this matter worthy of consideration.

The Comptroller General being authorized to pass upon the solvency or insolvency of men in the different counties of the State, and allow a Collector his Insolvent List—and as the law does not require these settlements of the Collectors and Comptroller to be reported upon or published, so that the people in the several counties can see what amount was allowed for their county, for an insolvent list—what is to prevent an unfaithful or corrupt Comptroller from making arrangements with and combining with an equally faithless Collector, in making out a large insolvent list for any one or more counties, and “dividing the spoils?” An enlargement of the lists, to the amount of only \$50 or \$100, in a few of the 132 counties in the State, would make quite a respectable amount. I am free to confess that I do not think that the State has yet elected to this office one

capable of such conduct, and it is to be hoped that no such Collector has been elected for many years—still, it is the part of wisdom, and I think it safest always to guard against these things, and I would therefore suggest that this whole section be repealed. Perhaps, however, the present system might be so modified so as to specially authorize the Comptroller General, if, from the evidence presented to him, a Collector has exercised due diligence in trying to obtain his Insolvent List, by the time prescribed by law, he may wait with said Collector for his Insolvent List 15 or 30 days after the 20th of December in each year, before issuing a *fi. fa.*

The Duties of the Comptroller General.

Having alluded above to the duties of this office, and stated that in my opinion they were more than any one man ought to be called upon to perform, I have deemed it not inappropriate at this time to present the testimony in relation to the matter, of the only twelve States I have been able to get the information asked for.

Judging, from the Reports of the Comptrollers and Auditors of the various States received at this office, that the duties of the Comptrollers or Auditors in the several States, were similar to those of the Comptroller of Georgia, and in many instances did not equal or exceed the duties of this office—and feeling, from experience, that if the duties of this office were properly attended to, one man has but little if any time for rest or recreation, unless he employed assistance, which I have found it necessary to do at different times, every year since I have been in office, a year or two ago I addressed the several Comptrollers and Auditors of the different States, enquiring of them as to the Salaries and Clerk hire of their own, and other State House officers in their respective States. I designed at the time to present the facts thus gathered, in my ensuing Annual Report, but not getting returns from all the States, I omitted doing so. But in view of the fact that for several years past the different Legislatures have been putting additional duties to this office, without any complaint whatever, or allusion to the same, in the reports from this office—in view of the fact that the Code, to take effect on the 1st of January, proposes to largely increase these duties, without providing any additional assistance—and in view moreover of the fact that the new Constitution of the State lately adopted, authorizes the Legislature to “*consolidate any two*” of the present State House “*offices, and require all the duties to be discharged by one officer,*” and presuming that the ensuing Legislature will act upon the same—lest my continued *silence* may be misconstrued, and my acquiescence be claimed for a seeming popular idea that “*one man*” in the Comptroller General’s office “*can do everything,*” I have deemed

it due to the State, due to myself, if re-elected; and due to any other officer that may succeed me, to remain silent no longer; but to "speak out," and state that the duties already required of this office, are altogether out of all proportion to that required of any other *unassisted* State officer, and that the same is acknowledged and provided for in other States by the difference in salaries and clerk hire given to the several State House officers by them. And as the best way of substantiating this statement, I have thought proper to present the following exhibit from twelve States, from which I have the information, Georgia included.

Salary, &c., of Comptroller General or Auditor.

STATE.	SALARY.—CLERK HIRE.—TOTAL.		
Louisiana,	\$4,000	3,200	\$7,200 00
Alabama,	2,000	} 1,000	3,200 00

Surveyor General.

In Louisiana, Alabama, Connecticut, Michigan, Ohio, Tennessee, Virginia, New York and Maryland, there is no Surveyor General.

Pennsylvania.—Salary \$1,600, Clerk hire 5000—6,600 00

South Carolina.—A fee office.

Georgia.—1,600 000—1,600 00

\$8,200 00

It will thus be seen that while the pay of the State House officers in the above named States is higher and largely in advance of that paid in Georgia to similar officers, it will also be seen that the aggregate pay of the Comptrollers or Auditors in these States is more than 50 per cent. over that of the State Treasurer, and within a very small fraction of 100 per cent. more than is paid to the Secretaries of State. When it is known too, that the State Treasurer has to give a very heavy bond for the safe keeping of the public money, and is responsible for all errors, in payments from the Treasury, this large discrimination, in the various States in favor of the Comptrollers or Auditors over the Treasurers, is remarkable, but it is so, nevertheless. If then, there was, or is any doubt about the matter, and if the duties and responsibilities of the Comptroller are not much greater than the others named, is it not very singular, and most extraordinary, that all of these States heard from, (and I doubt not it is the same case with others not heard from,) should thus make such a large discrimination, and difference in the pay of these officers?

As none of the above named States, except Pennsylvania and Georgia have a Surveyor General, and the State of Georgia having granted all of its land except a few small fractional parts of Head Rights, and the duties of the Surveyor General's office of Georgia, for several years past having gradually decreased, until there is comparatively little to do ; and as the whole business passing through that office per annum does not pay the salary of its officer by \$887 75 as will be seen by another part of this Report, I have not thought proper to draw any comparison in relation to that office.

However liberal, then, Georgia may have been for the past fifteen or twenty years in the payment of salaries to her other public officers, judging from the above exhibit from other States, it cannot be truthfully said that she has been *very* extravagant in the salaries paid to her State House Officers. From 1842 to 1859 the salary of this office was \$1600, no Clerk hire being allowed except when called for during the session of the Legislature. But, in 1856 and 1858, additional duties having been put upon the office, and in 1859 a bill having been introduced into the Legislature putting further additional duties upon the Comptroller, and requiring him to make out certain statistical tables annually for the use of the Legislature, it was referred to the Judiciary Committee, and that Committee after looking to the duties of this office and the additional labor imposed, reported the bill back to the House, allowing the Comptroller General \$500 per annum for such additional service, and recommended the passage of the bill, and it become a law. But the Code, while retaining these duties, and putting *further additional duties* upon this office to take effect in January next, has *actually reduced the pay* of the Comptroller \$100, by placing the salaries of both Treasurer and Comptroller to \$2,000 each, and omitting any Clerk hire.

Some of the new Duties prescribed by the Code.

There is however one of the new duties imposed by the Code upon the Comptroller, which, while it will give him double if not treble trouble so far as the receipts into the Treasury is concerned, in all frankness I must say that I can see no possible use or necessity for whatever, *on the contrary* I can see much *mischief* resulting from it. Under our *present system*, if a Tax Collector or other person is indebted to the State, and he wishes to make a partial payment in the Treasury, he goes or sends to the Treasurer the amount he wishes to pay—the Treasurer receives the amount and gives a certificate of payment for the same,—that certificate is brought to the Comptroller and he gives a receipt for the amount paid the Treasurer, he then credits the account of the Collector, or other person, charges

the Treasurer with so much received files the Treasurer's certificate as a *voucher* for the amount charged against him, and there the matter rests, for that payment—and the various payments made by Collectors, and others, go on in the same way, until the party makes his final settlement according to law. At that time, his receipts, and other vouchers, if he has any, are brought to the Comptroller, and a full settlement is had, and then, if he desires it, a *memorandum* or certificate is given him to present to the Treasurer, that the Treasurer may know how much to receive. The *proper amount* being paid and the *Treasurer having given his certificate for the same*, upon its being brought to this office, the Comptroller receipts in full to the debtor, retains the Treasurer's certificate, closes up the account of the debtor, charges the Treasurer and disposes of the certificate, as in the first payment. And, annually, the Finance Committee examines these certificates and charges, to see whether or not they are correct. This system seems to be plain, sensible, and *safe*, and I cannot see how it can be much improved. Consequently, the Code, in attempting to make a change has not only thrown a vast amount of useless and unprofitable labour upon the Comptroller, but it has "*put the cart before the horse*," and *destroyed* the necessary *checks* of the Comptroller upon the Treasurer, and, if not corrected, will prevent an account current being kept between the said officers.

By the provision of the Code, (see sections 96 and 89) whenever a Tax Collector or other person indebted to the State desires to make a partial payment into the Treasury, instead of his being permitted to go as heretofore and pay the amount to the Treasurer and get the Treasurer's certificate, which he brings to the Comptroller, and leaves, and gets the Comptroller's receipt—thereby enabling the Comptroller to *charge* the Treasurer with the amount of money *he receives*—the debtor or his agent will be required after 1st January, before he can pay said money into the Treasury or the Treasurer will be authorized to receive it, *first* to call upon the Comptroller, and that officer is required to give him a certificate or paper certifying to the Treasurer that said person is indebted to the State, and "the amount due" must be certified to in the certificate—and every time these partial payments are made, a similar certificate is to be given, the amount of each certificate varying, as the indebtedness is reduced. When it is understood that there are usually between 400 and 500 payments into the Treasury annually, made by about 200 persons, and as the accounts have to be examined, and made up, every time a certificate is given, it will be seen that there is no small amount of additional labour thrown upon this office.

But, what is the use of said certificates? Why certify

to the Treasurer that a Tax Collector is indebted \$5000, when he only pays the Treasurer \$950 at that time, and why certify next time that he owes \$4050 when he only pays the Treasurer at that time \$550? Why certify to the Treasurer at all in relation to the condition of an account for tax, when *he has nothing to do with it, but to receive the money on it?* it being the duty of the Comptroller to charge the Collector, or any other, indebted for tax, &c., keep an account against him and *make settlements in full with him or them?* The Treasurer might receive a dozen certificates as to the account of a Collector, and yet neither he nor the Comptroller could tell the nett amount due, until the Receiver's receipt for his commissions, the Insolvent List and Collector's commissions are brought in and a final settlement is made. The Comptroller cannot *properly* charge the amount of the certificate to the Treasurer every time he gives one, for if he does, in all cases where partial payments are made, the Treasurer may not only be charged with *five or ten times more than he receives*, but where frequent payments are made on one account, he may be *charged with three or four times the amount of the real sum due the State*. Take for instance the case of the Tax Collector above cited who owes \$5000, and who only makes two small payments, and it will be seen that while he *only pays* the Treasurer \$1500, the certificates given by the Comptroller, and *to be charged* to him (as the Code directs) amounts to \$9050. But admitting that this Collector informs the Comptroller that he intends to pay the Treasurer the whole sum \$5000, and a certificate is given him for the Treasurer, *what is to prevent the Collector from changing his mind and going off and not paying a cent of the \$5000 to the Treasurer?* Then why give a certificate, in such a case, or *charge the Treasurer, before the money is received by the Treasurer?* And yet it seems that the Code requires the Comptroller to thus give these certificates and *charge the Treasurer* and that officer is called upon to respond to these charges—as it makes no provision at all for a Treasurer's certificate, or any acknowledgment to this office from him, as to what amount he receives. But let us see how the matter stands.

The *present law* (see Act of 1799, T. R. R. Cobb's Digest, pages 1,022 and 1,023.) says: the *Comptroller General* shall "examine and correct all returns of taxable property, settle with the several Tax Collectors and all other persons indebted to the State, and in all cases where payments may be made at the Treasury, *give receipts for the same*, FOUNDED ON THE TREASURER'S CERTIFICATES, which certificates shall specially set forth the amount, on what account, and by whom paid, and be lodged as *ouchers* in the Comptroller General's office." This is all right. The Treasurer is not held accountable at this office for any

more money than he *receives*. Neither does a Collector or other debtor get credit upon his account at this office, unless he presents a certificate from the Treasurer that he *has paid the amount into the Treasury*. But the Code, to take effect in January, *reverses* the matter, and substitutes in place of the above the following: (see section 96.) It is the duty of the *Comptroller General* "to settle with and ascertain the amounts due from all Tax Collectors and all other persons indebted to the State, and GIVE CERTIFICATES of the AMOUNT DUE *before the same is paid into the Treasury*, and KEEP AN ACCOUNT *showing the amount THUS PAID THEREIN*;" and further, in section 89, it says: "It is moreover the duty of the *State Treasurer* to receive and keep safely all the money which shall be *paid him in behalf of the State* upon the CERTIFICATES of the COMPTROLLER GENERAL," &c. And, as there is no provision made for the Treasurer's certificates of payment, or other acknowledgment of receipts of money into the Treasury, there is *no other legal way* to charge and keep an account against the Treasurer in this office, than to *charge him with the Comptroller's certificates*. I have already shown to what a state of things this will lead to. The whole change, then, in my humble judgment, is so altogether uncalled for and *mischievous*, and so utterly destructive of the "checks and balances" heretofore existing between the Treasurer and Comptroller, and so destructive of one of the main objects for which the Comptroller General's office was established, that I would most respectfully suggest that the 96th section of the Code be repealed, and the Act of 1799, which has been in operation for near 62 years, be substituted for the same—and that so much of section 89, as recognizes the Comptroller's certificates *as charges*, in that section, be *repealed*. I cannot account for this error in the Code, except to suppose that in its being revised and changed by so many, viz: the Commissioners, and then a joint committee on the part of the Senate and House; that, in the revisions and changes by each, something in these sections which ought to be there, by accident has been stricken out.

Unless this error in the Code was committed in the manner above suggested, I presume that it was *intended* by the change made to *prohibit* the Treasurer from receiving any money belonging to the State, on claims due the State, *of which there is no account kept in this office*—without the party or parties owing the same *first* notifying this office that he wishes to pay the same to the Treasurer, *so that this office may raise an account against the same*, or against the person or persons owing the same. And the certificate of indebtedness is to be given, that the Treasurer may file it away, as evidence, in case of any difficulty about the matter, to show that the Comptroller was duly

notified, &c., *before* he, (the Treasurer,) received the money. This amendment would put a *further check* upon the *Treasurer* and prevent, as far as possible, a *dishonest* Treasurer from colluding with or deceiving any of this class of debtors to the State. I think such an amendment as this, of the old law, an appropriate one. By *not* charging the *Treasurer* until *his certificate of payment* is brought to this office by the debtor, and a receipt given him for the same by the Comptroller, there will be no false or erroneous charges made in this office against the Treasurer; which might otherwise be made, by the debtor *changing his mind*, and his only making a *partial* payment after he obtained the Comptroller's certificate, or by his *not paying anything at all to the Treasurer, after getting the certificate*.

But, when the debtor gets the certificate, the account will then be raised against him, and the Comptroller will then become responsible for its prompt payment into the Treasury, if the debtor is solvent. After the said certificate is given to the debtor and the money becomes due, if he does not furnish to the Comptroller the usual Treasurer's certificate *of payment*, it then becomes the duty of the Comptroller, (by this amendment,) to issue a *fi fa* for the amount, and have it collected and paid into the Treasury.

But in making this amendment, there was not, and is not any necessity whatever for disturbing the present very excellent system, established by the Act of 1799; for the whole thing could have been done and can now be done by letting the old law remain as it is, and adding a section, to this effect:

"Sec. — It shall not be lawful for the Treasurer to receive money on any debt due the State, of which no regular account of such indebtedness is kept in the Comptroller General's office, until in all such cases, the party or parties owing the State, and desiring to pay the same, or any part thereof, into the Treasury, shall, on his or their own part, or by agent, *first* obtain from the Comptroller General a certificate of his, her or their indebtedness, and the amount due. And upon the presentation of said certificate to the Treasurer, he is authorized to receive said public money and to give to said party a certificate of payment, addressed to the Comptroller General, who shall give said person or persons a receipt for the amount so paid into the Treasury—and the Comptroller shall keep and dispose of the Treasurer's certificate in the manner now prescribed by law, as in all other cases. At the time the Comptroller gives said certificate, he shall raise or enter an account on his books against the said debtor or debtors, but the same shall receive no credit, nor shall the Treasurer be charged by the Comptroller with the amount or any portion of the same, until the said Treasurer's certificate

of payment is received and receipted for by the Comptroller."

With a repeal of the 96th section and an amendment of the 89th section of the Code, as heretofore suggested, the re-enactment of the Act of 1790, and the adoption of another section similar to the one above offered, the "checks and balances" between the Treasury and the Comptroller General's office, will have been restored, and a wholesome improvement will be made. But unless it be done, the *results*, in my humble judgment, are already foreshadowed.

There is another class of duties, however, transferred and thrown upon the Comptroller, that I think an improvement upon the present law. I allude to that portion of the Code requiring Banks, Foreign Bank Agents, Foreign Insurance Companies, Express Companies and Rail Roads to make their returns to this office, and to pay their tax upon an order from this office to the Treasurer. Under the present law, all of these companies and corporations now make their returns directly to the Treasurer and pay their tax to that officer at the time such returns are made. As that officer, however, has to remain in his office constantly, receiving and paying out money, he has not the same facilities for ascertaining defaulters, if there be any, that this or almost any office has. In addition to this, the Treasurer has no power to issue a *fi fa*, while the Comptroller General has that power. Consequently, at this time, the responsibility attending the prompt collection of this tax is divided between *two* instead of *one* officer. The Comptroller might be satisfied of his own personal or individual knowledge that one or more of these parties were in default—but as the law does not require them to make a return to him, *he has no authority*, under the law, to issue a *fi fa* against the defaulter, *until officially notified by the Treasurer*. But the Code places the whole responsibility for the prompt collection of this Tax upon one officer, and I think this an improvement.

A Condensed Statement of most of the Duties of the Comptroller.

But, it will be seen that *it is the duty of the Comptroller* to ascertain the amounts due by all persons indebted to the State, and give receipts upon the Treasurer's certificates for all moneys paid into the Treasury daily or otherwise—To examine and audit all accounts against the State that may be daily or otherwise presented to him—To "approve" countersign and enter all warrants that may be drawn daily or otherwise on the State Treasury—To keep the accounts of and settle with all Tax Collectors, to allow them their own commissions and the Receivers commissions they may pay, and to examine and credit them with the insolvent lists that may be allowed them by the Infe-

ferior Courts and Grand Juries ; and in case of default, by them, to issue *fi fas*, and send them to sheriffs, and look to the payment of the same into the Treasury—To receive and keep safely, and collect all evidences of debt, due the State, from any other source than taxes, and pay over the same to the Treasurer as soon as received—To countersign all Head Right Grants, Copy Grants and Testimonials, and to charge the Treasurer with the fees received on the same—To correspond with Solicitors General and other officers, in relation to the public dues—To keep a book and to enter all bonds taken since March, 1856, and file the bonds—To enter and keep on file all bonds taken of Tax Collectors and Receivers—To make examination of his Records when called upon, and to give certificates for the same, &c—To issue and send circulars to Receivers of Tax Returns, relative to their duties and the rules and regulations of this office—To send blank Digests to the Receivers for them to enter property, &c—To examine all Tax Digests, correct any errors that may be found, and have the same corrected in the counties from which they came—To add up the Returns of the various Tax Receivers in the State—To ascertain the amount of property returned, and the poll and other tax returned, and to assess, with the advice and consent of the Governor, the General Tax of the State—To levy the State Tax upon each county in the State—To receipt to all the Receivers of Tax Returns for their Digests, allow them their commissions, and give them certificates to the Collectors to pay said commissions—To notify the Collectors, by circulars, &c., as to the per cent tax levied, and to instruct them as to the rules and regulations of the Comptroller's and Treasury office—To examine Digests after the taxes are collected and paid into the Treasury, and to correct errors in the same, and to allow to Collectors or Tax payers any sums overpaid by them, on account of these errors, and have the amount refunded to them—To receive the returns of Banks, Rail Roads, Foreign Bank Agents, Foreign Insurance, and Express Companies, and give drafts or orders upon each to the Treasurer, and to see that the tax is promptly paid into the State Treasury—To make an Annual Report to the Governor for the Legislature, in which he is to report generally and in detail, the whole operations, as to receipts and expenditures of the Treasury during the year—To suggest and recommend such improvements in the Revenue Laws, as his observation and experience may approve—Also to report a statement of the taxes paid to the State by each county, as appears by the Digest thereof, and the Counties whose Collectors are in default, &c—To report a statement of all evidences of solvent debts due the State, and uncollected, which may remain in his office, the condition of the same, the name of

the Solicitor or Attorney having it in charge, &c—a statement of the Educational Fund of the State, its annual income, the amounts paid, when and to whom paid—a statement of the accounts of all officers or agents disbursing the public money, &c—a statement of the Public Debt of the State, the amount of interest paid, &c—a statement showing the salaries and pay of all officers of the State—a statement showing the incidental expenses of the General Assembly, Executive and Judicial Departments—To enter, in alphabetical order, the full amount of all annual appropriations, setting forth the accounts under their appropriate heads, all warrants that he may check and pass, together with the fund on which it is drawn, the time, amount, and in whose favor drawn, and make all entries necessary to a true exhibit of the finances of the State. The Comptroller General must also make out in his Report, for the use of the General Assembly, a Table, containing the Taxable Property and other items on the Tax Digest of each county, for the year in which he makes his Annual Report—also a Table, annually, of the polls in each county for the year immediately preceding his Report—the number of voters in each county at the general election next preceding his Report—the number of children in each county returned for participation in the Educational Fund, and the amount drawn by each county from said fund—the amount drawn by each county for pay of members of the General Assembly—the total amount drawn by each county from the Treasury, and the total amount of net tax paid into the Treasury for the year preceding by each county. Also, to furnish such other statistical information connected with his office as may be useful to the General Assembly, &c. &c. In addition to these duties, and while performing them, the Comptroller General has to keep up a heavy correspondence, in writing to Receivers of Tax Returns and Tax payers, while property, &c., is being returned for Taxation, and replying to their various and numerous enquiries as to the construction placed upon different portions of the Tax Laws, at this office—Responding to Tax Collectors and Tax payers as to errors in the Digests discovered while collecting the Taxes, and informing them how the corrections are to be made, allowed, &c.,—Sending receipts for taxes to the Collectors and giving them statements of their accounts from time to time—And also replying to numerous other parties giving them information upon other matters connected with the affairs of the State, and the Comptroller's and the different offices at the Capital. When it is thus seen what duties the Comptroller General has to perform, I think that your Excellency and the Legislature and all others will agree with me, that this office has more duties put upon it than any other “unassisted” office in the

State, and appropriate as may be the putting the additional duties upon this office of receiving the Returns of and looking to the prompt payment of the taxes from Banks, Rail Roads, Foreign Agents, Companies, &c., &c., the Comptroller General, without employing assistance (which as I have before remarked, I have had to do every year since I have been in office,) has but a limited chance to look out and detect defaulting agents of Foreign Banks, Foreign Insurance Companies, &c., &c., in different parts of the State.

In what I have said above as to the duties and responsibilities of this office, and while exhibiting the course of other States named, in relation to the same and other State officers, I do not wish to be understood as doing so for the purpose of suggesting or recommending any increase of salary or additional assistance to this office, at this time. Such is not my purpose. For however proper such a course would be in ordinary times, (and I think all who will read this exhibit, will agree with me that under a different and more prosperous condition of the country, such a suggestion or recommendation would be eminently proper,) still while we are engaged in war, I do not think that, if it can be possibly avoided, there should be any increase of salaries or pay anywhere, and therefore I do not recommend it. But, for reasons stated in the first part of this subject—and feeling that in years past, the duties and responsibilities of this office have not been properly appreciated, either by the Legislatures or the public generally—and, especially as I think the ensuing Legislature will in all probability take into consideration the propriety or necessity of “consolidating *two* of these offices, and require all the duties to be discharged by one officer,”—that the Legislature may have all the information at my command upon the subject, in compliance with that portion of the statute, calling upon the Comptroller General to “furnish” in his Annual Report “such other statistical information connected with this office *as may be useful* to the “General Assembly,” I have thought it proper at this time, while recommending the Legislature to make certain amendments in the Code, relative to the Revenue Laws and the keeping of the accounts between this office and the Treasury, to submit the facts and figures above alluded to, at the same time.

Tax on Rail Road Stock.

Up to 1850, it was not the policy of the State to tax Rail Road Stock. For the purpose of encouraging the building of Rail Roads, in most of the first charters given to Rail Road Companies the State agreed in them not to tax the Roads, &c., at any time over one half of one pr. ct. on their nett annual income. And although the Georgia and Cen-

tral, and other Rail Roads were in operation and doing business for several years previously, they were not taxed by the State until 1850, when the tax authorized by their charters was levied upon them. The Macon & Western Road, not having any protection in its charter against a higher taxation than one-half of one per cent., was taxed upon its capital stock, and paid a higher tax than the others—but in 1858, that and other Roads were *all put upon the same footing*, and each Road is now required to pay one-half of one per cent. upon its nett annual income.

The tax paid by Rail Roads this year, is as follows :

NAME OF ROAD.	TAX.
Central Rail Road.....	\$4,147 87
Georgia Rail Road.....	2,640 22
Macon & Western Rail Road.....	1,072 00
South Western Rail Road.....	1,925 00
Augusta & Savannah Rail Road.....	411 59
West Point & Atlanta Rail Road.....	1,044 78
Muscogee Rail Road.....	377 04

The Code, however, that takes effect in January, has changed this equitable mode of levying the tax upon Rail Roads, and has substituted the following sections, in lieu of the present law, viz :

“SEC. 746. The several *Rail Roads* and other incorporated Companies or unincorporated Companies of every kind, except Banks, which are not exempt by their charter or otherwise, or for which there is not a different method of taxation specially prescribed, pay the same rate per cent. upon the whole amount of their capital stock paid in, as is levied on other capital, together with the same rate per cent. upon their nett annual profits.

SEC. 747. The provisions of the preceding sections apply to private bankers, brokers, or exchange merchants.

SEC. 748. The several Rail Roads, by whose charters a higher tax is forbidden, and such as are now or may hereafter be in operation, that do not pay a dividend exceeding six per cent., shall pay only one-half of one per cent. upon the nett annual income of each, until they pay a dividend of eight per cent. per annum, in which shall be included the reserved fund, at which time they are to be taxed as other capital.”

I am free to confess that I cannot exactly understand the meaning of these two sections, together. So far as I can understand them, the 746th section by itself means, to tax all Rail Roads, (whose charters do not protect them against a higher tax than one-half of one per cent. upon their nettan-

nual income,) upon their *capital stock*, and the tax upon said capital stock paid in, is to be the same as is levied annually upon money or solvent debts, &c. The 74St^h section, however, seems to *conflict with* and upset this construction; for by it these Rail Roads are to be taxed according to their *nett annual income* until they pay a dividend of eight per cent. per annum, at which time they are to be taxed upon their capital stock, and annual income, as other capital, (meaning, I suppose, as money, notes, &c., are taxed.) But suppose the Roads do not pay six or eight per cent., what then? The 74St^h section does not say whether they shall be taxed or not. But this is not all. Notwithstanding the protection given in their charters to several Rail Roads against a higher tax than one-half of one per cent. upon their annual income, the 74St^h section *changes the mode of* taxation when they pay a dividend of eight per cent. and requires them to pay a tax on their capital stock and annual income.

When it is already seen that these Roads *now* pay, without complaint, the *highest tax authorized to be levied by their charters*, it will at once be seen that in *any change* from the present law, (so far as these Roads are concerned,) the State has every thing to lose and nothing to gain; for if a tax upon their capital stock and net annual income raises a higher tax than one-half of one per cent. upon their net annual income, they can, and no doubt would, very properly come before the Legislature for relief, and would get it. On the other hand, if the tax be *less* than under the present law, they would say nothing and the State would lose so much tax.

In thus attempting to construe these two sections, I am not sure that another will agree with me, or that a third person would agree with either of us, but I have offered the best interpretation I can give them. With this doubt, then, as to the proper construction to be given these two sections, I would respectfully suggest, if they be permitted to go into force, that an explanatory amendment be also adopted.

The following Roads are protected by their charters against a higher tax than one-half of one per cent. upon their net annual income, viz:

Central Rail Road.

Georgia Rail Road.

South Western Rail Road.

Muscogee Rail Road.

Brunswick & Florida Rail Road.

Savannah & Albany Rail Road.

Augusta & Savannah Rail Road.

Milledgeville & Augusta Rail Road.

All other Roads, if I mistake not, are liable to any tax the State chooses to put upon them.

If it be the will of the Legislature to follow the Code and depart from the past policy of the State, and tax all Rail Roads or Rail Road stock, whether said Roads are finished or unfinished, or make any thing or not, I would respectfully suggest that so much of the 746th section above, that alludes to Rail Roads, be stricken out, and the whole of the 748th section be repealed, and one plain and simple section be substituted—declaring that all Rail Road stock, or capital paid in, or other assets, belonging to Rail Roads in this State, whose charters do not protect them against a higher tax than one-half of one per cent. upon their net annual income, shall pay such a tax upon their capital stock paid in, and other property or assets, as is levied upon money, notes and other property in the State. And further, that all Rail Road Companies whose charters protect them against a higher tax than one-half of one per cent. upon their net annual income, be taxed to the limit of their charters. This was done by the Act of 1858.

Or, if the Legislature prefers to adhere to the past policy of the State, and tax all Rail Roads alike, I would respectfully suggest the amendment alluded to of the 746th section and the repeal of the 748th section, and the re-enactment of the Act of 1858 now of force, but which is to be superseded by the two sections of the Code above quoted.

In view of the past course of Georgia in relation to this matter, and being satisfied that Rail Roads even though *profitless* to their stockholders, add largely to the revenue of the State, by increasing the value of lands and other property on or near them, and as the Act of 1858 makes no discrimination, but taxes all alike, I have not heretofore thought proper to suggest a substitute for said Act, nor do I do so at this time.

Tax Collector's Commissions on the County Tax.

My attention having been called to the defect in the law, relative to the per cent to be allowed Tax Collectors for collecting the County Taxes, I would respectfully call the attention of the Legislature to the same, and would suggest that the per cent, to be allowed for collecting the County Taxes be more clearly defined. As the law now stands, it is difficult to determine *what is law* in relation to the subject, and what is the proper and legal per cent that ought to be allowed.

The following is the law in relation to allowing Receivers of Tax Returns and Tax Collectors their commissions *for the State Tax*.

“116. SEC. 4. The following rates of Commissions shall be allowed, in the *nett* amount of *each Digest*, to each Receiver and Collector of the State Taxes, to-wit:

On all Digests over \$20,000, 3 per cent.

"	"	"	"	10,000, and	under \$20,000	4 pr ct.
"	"	"	"	6,000	"	" 10,000 5 " "
"	"	"	"	4,000	"	" 6,000 6 " "
"	"	"	"	3,000	"	" 4,000 7 " "
"	"	"	"	2,000	"	" 3,000 8 " "
"	"	"	"	1,000	"	" 2,000 9 " "
"	"	"	"	under 1,000		10 per cent.

The above rates, it will be seen, is for the *State Tax alone*—and the Receivers and Collectors of all the counties in the State are allowed Commissions at this office on the State Tax, in accordance with the above rates, except the counties of Chatham, Richmond and Muscogee. By *special Acts*, the Receivers and Collectors of Chatham and Richmond counties are allowed 5 per cent. commissions, no matter how much the State tax may be in their counties, and the Receivers and Collectors of Muscogee are allowed 5 per cent. commissions, where their Digests do not exceed \$20,000, but when their Digest exceeds the 20,000 dollars they fall under the operations of the above law.—*But there is nothing in the above relative to their commissions on the County Taxes.*

In December, 1792, however, an Act was passed authorizing and requiring the Inferior Courts to look after the welfare of the poor, and to levy a small tax for their support. The Act requiring the State Collector to collect this tax, and allowing him five per cent commissions, for doing so. In 1821, another Act was passed, authorizing the Inferior Courts, under certain circumstances, to levy an extra tax, not exceeding fifty per cent upon the State Tax, for county purposes. This Act also makes it the duty of the State Collector to collect said tax, and says: "the Collector shall be entitled to the *usual commissions* for collecting any such extraordinary tax assessed and levied as aforesaid." *And here arises the difficulty.*

What is "the usual commissions? Is it the commissions allowed to the Collector, by the State, or are the commissions to be computed by the above schedule of rates, *without reference to what the State pays the Collector?* If "the usual commissions" are to be computed by the above rates, and Pulaski county, for instance, levies but 25 per cent this year upon the State Tax, she will pay the Collector 9 per cent for collecting her tax, because the same is under \$2,000, while the State only pays for the collecting of her tax 5 per cent, her tax amounting to \$6,110 59. Again, take Merriwether county, whose Digest is \$10,346 36, and whose Collector the State pays 4 per cent. If Merriwether only levies 25 per cent on the State Tax, she would pay her Collector 8 per cent on the county tax. On the other hand, if "the usual commissions" be *the amount allowed by*

the State to the Collector, Chatham county, which, (I learn,) has a county tax of \$31,381 64, being 100 per cent on the State tax, pays her Collector, on her county tax, 5 per cent, whereas the above rates only entitle him to 3 per cent. And Muscogee county, whose Collector gets 5 per cent, provided the State's Digest does not exceed \$20,000, (and who gets but three per cent on the State Tax, if the State's Digest exceeds that amount,) also gets 5 per cent on the county tax of \$48,442 69. I learn that the county tax is 359 per cent upon the State tax of \$13,840 77; and 350 per cent upon \$13,840 77 amounts to \$48,442 69.

By first alluding to Pulaski and Merriwether counties, I have shown how the law would operate upon the middle sized and small counties, with a tax smaller than the State tax, where the computation of commissions is made in one way, and I have shown the result in other counties, if made in another way. But, whichever way may be the best, or most equitable, I think it difficult to say what is the *law* upon the subject.

I would therefore suggest to the Legislature either to apply the above schedule to the counties, or adopt some specific amounts, as commissions to the Collectors on the county taxes. The Code, which takes effect in January, has changed the present law (which does not allow Receivers any commissions on the county taxes,) by allowing Receivers "one half of what the Collector gets for collecting the county tax;" but it only says "Tax Collectors shall be allowed the same commissions and fees for such collections, as they are allowed by law for the collection of the State tax, and are liable to the same fines and forfeitures, for any default or improper conduct." But, as I do not think this provision of the Code sufficiently distinct, considering the different interpretations existing as to the law on the subject, for uniform and correct action upon the subject hereafter, I make the above suggestion.

All of which is respectfully submitted.

PETERSON THWEATT,

Comptroller General.

TABLE,

Showing the amount of Taxes in the year 1861, levied upon the returns of the Receivers of Tax Returns, filed in the Comptroller General's Office.
